

WHAT WE'RE GOING TO DO IN SUMMER 2

Our next topic in F2 is 'Ticket to Ride'

This topic is about transport and how we travel to different places. We will be looking at different types of transport as well as different places we might visit. We'll think about how we travel and how our grandparents and great grandparents might have travelled in the past. We will also think about holidays we have been on and how we got there.

The Prime Areas:

Communication and Language

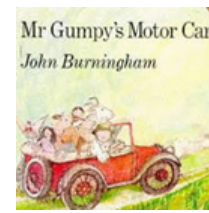

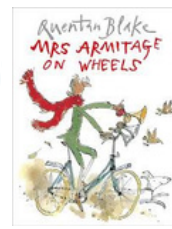

Each week a quality text will introduce us to different types of transport. From this text we will learn new vocabulary and make links within our provision to learn and explore new things. We also have daily topic related stories.

Personal, Social and Emotional Development

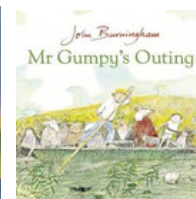

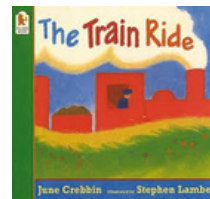

This is part of everything we do in Foundation, learning about our school values, emotions and building relationships. Through the SCARF scheme this half term we are learning about 'Growing and Changing'. We will also revisit our previous safety topic relating it to safety on the roads and on holidays.

Physical Development

We develop fine motor and gross motor skills, working both indoors and outside. In PE sessions we will practise our athletics skills, preparing for our Sports Day in June. For our fine motor skills, we continue to strengthen our fingers, using tools and equipment accurately and safely, such as, threading, cutting, tracing and mark making.

OUR TEXTS FOR THIS HALF TERM

Specific Areas:

Literacy

We have daily phonics lessons and read in groups 2/3 times each week.

This term we are learning to read and spell CVCC and CCVC words with long vowel sounds, as well as words ending in 's', 'es', 'ed' and 'ing'. We will also be working on writing sentences with increasing independence and ensuring we form our letters correctly.

Mathematics

This half term we are working on shape, position and pattern as well as recapping numbers to 20, adding, subtracting and sharing numbers.

Specific Areas:

Understanding the World

As part of our topic we are thinking about past and present transport, how we travel and how our grandparents might have travelled. We will also look at maps, different holiday destinations and how we can travel to them. Our RE topic is 'Our Wonderful World'.

Expressive Arts and Design

This includes getting creative, not only with art, making and building activities but also with role play, songs, music and dance. We will make links between transport and sound patterns in music and make our own transport models using different construction materials.
